Hello! We are proud to be the internet provider for the rural Lane County area. We have been providing internet to our community since 2014. Getting connected with our WiFi means seamless streaming, video calling, and online education all without data caps or contracts. We are passionate about providing an incomparable member experience and support system.

Give us a call or send a text to learn more about the cost, timeline, and project details!

We are proudly  
rated 5 stars by our
